PROFILE

I am Meet Chaudhari, a highly skilled and motivated second-year Computer Engineer with a strong proficiency in programming languages including C, C++ and javascript. I have gained extensive experience in developing projects using a diverse range of technologies. I am committed in improving front-end and back-end development abilities, skilled in building responsive and dynamic websites. I have basic knowledge of algorithms. I have mentioned my project which are the part of my academic.

PROJECT

VINYVIBE WEBSITE

HTML, CSS, JAVASCRIPT, PHP

2024

- Implemented features such as adding, editing, and deleting tasks, with local storage for data persistence.
- Utilized CSS frameworks for styling and ensuring cross-browser compatibility.

HOSPITAL MANAGEMENT SYSTEM

C++

2024

- Designed and developed a hospital management system using C++.
- Implemented modules for patient registration, appointment scheduling, and medical record management.
- Utilized object-oriented programming principles to ensure modularity and maintainability.
